SUBJECT OUTLINE

Subject Name: Naturopathic Philosophy
Subject Code: NATP111

SECTION 1 – GENERAL INFORMATION

Award/s: Bachelor of Complementary Medicine
Total Course Credit Points: 48
Level: 1st Year
Duration: 1 Semester
Subject is: Core
Subject Credit Points: 2

Student Workload:

<table>

Delivery Mode*:

☐ On campus  ☒ Online / Digital  ☐ Blended  ☐ Intensive

Weekly Session^ Format/s - 1 session per week:

☒ eLearning modules: Lectures: Narrated PowerPoint presentations
Tutorials: can include asynchronous tutor moderated discussion forum and activities, learning journal activities or other web-based resources

*All modes are supported by the online learning management system which will include subject documents such as handouts, readings and assessment guides.

^A ‘session’ is made up of 3 hours of timetabled / online study time per week unless otherwise specified. Each subject has a set number of sessions as outlined above.

Study Pattern:

☒ Full Time  ☒ Part Time

Pre-requisites: Nil
Co-requisites: Nil

SECTION 2 – ACADEMIC DETAILS

Subject Rationale

This subject introduces philosophy, principles of practice and theories that underlie Naturopathic medicine. Students identify, rationalise, and validate Naturopathic medicine based on western philosophy and unique codified naturopathic principles of practice. Understanding develops through an overview of philosophical thought and an exploration of the ways philosophy forms the foundation of the healthcare professions, with a specific focus on contemporary Naturopathic medicine. Through critical questioning and discussion, students engage in exploration of the principles and key concepts of Naturopathic medicine that derive from philosophical thought,
and recognise how these relate to Naturopathic practice. This subject provides foundational knowledge for the informed study and practice of Naturopathic medicine and develops recognition of healthcare discipline philosophical commonality and difference and the unique characteristics that define naturopathic practice.

### Learning Outcomes

1. Identify the branches of western philosophy and knowledge and determine the ways these inform healthcare generally and Naturopathic practice specifically.
2. Discuss the Naturopathic view of illness and healing as a dynamic process within a rational philosophical framework through application of the principles of naturopathic practice and naturopathic theory.
3. Explain the six primary Naturopathic case management principles and explore the clinical application of these within the concept of the Therapeutic Order.
4. Describe the philosophical basis of knowledge applied by Naturopathic medicine and relate this to clinical reasoning and ethical/values-based behaviour.
5. Discuss the role of Naturopathic medicine within contemporary healthcare service delivery from a philosophical perspective.

### Assessment Tasks

<table>
<thead>
<tr>
<th>Type</th>

All written assessments and online quizzes are due at 11:55 p.m. and submitted through the LMS

### Prescribed Readings:

Recommended Readings:

| Subject Content |
|-----------------|-----------------|-----------------|
| **Week** | **Lectures** | **Tutorials** |
| **1.** | **Understanding philosophy as a discipline** | Small group forum discussion – philosophy in life |
|  | Define philosophy and understand how philosophers think | What effect does the mind-body split (dualism) have on the way humans see themselves? How does a monistic perspective differ? |
|  | Introduce the distinct branches of philosophy | |
|  | A brief history of Western philosophy | |
|  | 1. Greece – Aristotle and Plato | |
|  | 2. Religious philosophy | |
|  | 3. Eastern philosophical influences on Western thought | |
|  | 4. The Enlightenment | |
|  | 5. Naturphilosophie within German Romanticism and its importance for Naturopathic medicine | |
|  | 6. Contemporary philosophy in Western society | |
|  | **Philosophies of healthcare knowledge in practice** | |
|  | What is healthcare knowledge? | |
|  | 1. Philosophies of the body | |
|  | › Monism and dualism | |
|  | › Balance and homoeostasis | |
### Philosophy of Naturopathy

#### 2. The use of reasoning within healthcare delivery

- **Formal and informal logic**
- **Reasoning methods in the clinical setting – the art and science of healthcare**
- **Practical reasoning**
  - Logic shared across a community
  - Ends served by the means
  - Experientiality informing reason
  - Context driving reasoning
  - Reasoning conscious of multivariate causality
  - Controlled environments inform reason
  - Reasoning focusing on isolated causes
- **Logical fallacies and their relevance**
- **Naturopathic medicine and the use of logic within clinical reasoning**
- **Contextualised individualisation of therapeutic interventions**
  - Holistic and teleological prioritisation
  - Emphasising the inter-relational physical/mental/emotional/spiritual/socio-cultural/existential body
  - Unique causal factors within a nexus of interconnection

---

Forum discussion – the role of philosophy in healthcare

What does the naturo in Naturopath mean?
The appropriateness of reductionist and mechanistic philosophy within naturopathic medicine.

Experiential learning: sensing the ‘energy body’ (guided exercise).
### 3. Naturopathic medicine philosophy in practice – principles and theories

- **The Naturopathic framework of health and disease**
  - Nature cure
  - Determinants of health
  - Model of progression of disease and restoration of health
  - Acute and chronic illness
  - Suppression and healing
  - Hering’s Law of Cure

Small group forum discussion

Class and on-line discussion - explore the condition of solastalgia and discuss its ontological relevance to Naturopathic medicine.

How might the Healing Power of Nature be explained to others?

### 4. Naturopathic medicine philosophy in practice – guiding principles

- **Primary guiding principles**
  1. First do no harm
  2. Vis medicatrix naturae
  3. Holism
  4. Tolle causum
  5. Docere
  6. Prevention

Forum discussion.

Critical consciousness as a principle in naturopathy.

Small groups - peer interview to explore the Naturopathic guiding principles.

### 5. Naturopathic Medicine in Practice

- **Vis Medicatrix Naturae – The Healing Power of Nature**

Small group forum discussion – What is your experience of vis medicatrix naturae?

Review a case and discuss the therapeutic order in relation to this.
<p>| | |</p>

<tr>
<td>4.</td>
<td>Modern energy medicine</td>
</tr>
</tbody>
</table>

**Process of Disease and Healing – The Vis in Action**

- Naturopathic definition of disease
- Acute vs. chronic disease
- Symptoms as expressions of the illness
- Acute inflammatory process & the body’s innate intelligence
- Schematic of the process of disease and healing
- Removing obstacles to cure/disturbing factors
- Hering’s Principles of Cure
- Healing Reactions/Discharge vs. Disease Crisis

<tr>
<td></td>
<td>Distinguishing suppression, palliation and cure/elimination</td>
</tr>
<tr>
<td></td>
<td>Restorative practices as least force interventions</td>
</tr>
</tbody>
</table>

**The Guiding principle ‘First Do No Harm’**

- Establish the conditions for health |
- Stimulate self-healing mechanisms |
- Support weakened or damaged systems or organs |
- Address structural integrity |

</table>

**Constitutional Medicine – Treating the Whole Person in Practice**

- “Constitution” defined
- Overview of the constitutional systems of homeopathy
- Identification of patterns: physical, mental, emotional

---

**NON-TEACHING WEEK** (note that make-up classes may be scheduled in this week)

**Online students** – The non-teaching week falls between Weeks 7 and 8

**8. Tolle Causam – Treat the Cause**

- Definition of the principle
- Unity of Disease (Lindlahr)
- Terrain, miasm and temperament vs. pathogen
- How does one thing cause another?
- Is it possible to truly ‘know’ a cause?
- Downward causality and emergence
- Upward causality and reductionism
- Dispositionalism
- Toxaemia – sources of toxicity

**Treating the Causes of Illness**

- History and practice of hygiene and Nature Cure
- Primary and secondary causes of disease
- Emunctorology

**Forum discussion. How does naturopathic medicine provide Telos in its understanding of causality?**

---

**9. Docere – Naturopath as Teacher**

- Definition of the principle
- The patient/practitioner relationship
- Horizontal & vertical vectors implicit within a patient/practitioner relationship

**Small group forum discussion - The role of the therapeutic relationship.**

**Experiential exercise.**
### The therapeutic relationship as medicine

- Intention and healing
- Walking the talk—role modelling
- Rapport building
- Interactive Skills
- Unconditional Presence
- Healthy boundaries
- Listening without judgment
- Verbal and non-verbal communication
- The patient as a modality - the Placebo Effect
- Psychoneuroimmunology

## 10. Preventare — Prevention

- Definition of the principle
- Health promotion
- Health during pre-conception, conception and pregnancy
- Health in childhood and adolescence
- Lifestyle behaviours
- Risk factors
- Engagement and adherence

### Prevention of disease

- Sustainable (economic/environmental)/ restorative health care—a vision
- Social determinants of health
- Creating a healthy world
- Human impact on the environment
- Impact of the environment on humans
1. The Gaia hypothesis and health—whole systems
2. “Metaflammation” and climate change – the link
3. Consequences of global population growth

<table>

</tr>
<tr>
<td>4. Professional dominance and power in healthcare policymaking and service delivery</td>
</tr>
<tr>
<td>5. Naturopathic medicine interaction with political healthcare philosophies</td>
</tr>
</tbody>
</table>

**Naturopathic medicine and public healthcare policy**

Philosophical profile of Naturopathic medicine users
Naturopathic medicine use as cultural and political identity
Naturopathic medicine as a public healthcare service delivery to all sectors of society
Naturopathic practitioners as primary healthcare providers
Naturopathic medicine service provision as healthcare of affluence

Naturopathic treatment modality exploration
<table>
<thead>
<tr>
<th>13. Naturopathic medicine and philosophical scepticism</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Common sceptical arguments against Naturopathic medicine philosophy</td>
</tr>
<tr>
<td>2. Counter-arguments to scepticism of Naturopathic medicine philosophy</td>
</tr>
</tbody>
</table>

**Communicating Naturopathic medicine philosophy**

- Role as academically rigorous CAM philosophers
- Role as philosophical ambassadors for Naturopathic medicine in healthcare
- Disseminating Naturopathic medicine philosophy

**Synthesis of learning from this subject**

**14. Non-Teaching Week/Practical Examination Week 1**

Note that make-up classes may be scheduled in this week

**15. Non-Teaching Week/Practical Examination Week 2**

Note that make-up classes may be scheduled in this week

**16. Final Examination Week 1**

There is no final exam for this subject

**17. Final Examination Week 2**

There is no final exam for this subject
