

Overview

A portion of research funds will be allocated to support independent research projects undertaken by experienced researchers which align with the Research Priorities for the College (see [Statement on Research Priorities](#)). Disbursement of these funds will be through a competitive process which will require applicants to propose research projects aligned to one of two grant opportunities. Dissemination of the available funds for these grants will be determined by the Research Management Committee based on merit alone. In the event the submitted applications which are approved by the Research Management Committee do not reflect the total available funds, these funds will be accrued to the following financial year.

To ensure adequate time for high quality submissions to these grants, the funding rounds will be annual. Advertisement will take place through professional associations, Endeavour alumni and external research institutions for at least 30 days prior to submission deadline. The Research Management Committee may choose, at their discretion, to specify a topic or theme which will be prioritised above the other criteria for the forthcoming grant rounds. Applicants will be notified within 60 days of submission deadline following review by the Research Management Committee.

Applicant Eligibility for Endeavour Research Grants

- Only one proposal per applicant will be accepted by the Research Management Committee for any grant type in any application cycle.
- An applicant may not apply for more than one proposal during an application period.
- An applicant may not hold more than one grant as the principal investigator from the College at any one time.
- There are no restrictions on who is listed as a collaborator but all collaborators must be included within the proposal.
- Each grant application must include a collaborator who is employed by the College. This includes both contract and permanent staff.
- In the event that the Endeavour employed collaborator ceases employment with the College, it is the responsibility of both the Chief and Co-Investigator to find a suitable replacement to avoid discontinuation of funding.

- If an application has been turned down by the Research Management Committee the principal investigator is allowed one re-submission of a revised proposal on the same subject. Revised proposals must indicate changes from previous proposals.
- Supplementation of funding from other grant sources must be approved by the Research Management Committee if not described in the original research plan.
- Awards from other sources may be approved by the Research Management Committee if the investigator submits a satisfactory plan to address any budgetary overlap.
- The final amount approved for funding for any grant application is at the discretion of the Research Management Committee and may be less than proposed by the applicant. Such decisions will be made by the committee based upon availability of funds and proposed project scope.

Payment Schedule

Grant funds will be paid to the researcher group following notification of application success within 45 days of receipt of funding request from the host institution. Ten percent of the total grant award will be withheld by the College, to be released upon receipt of an acceptable research project final report within six (6) months of the due date. In the event that the project is abandoned due to unforeseen circumstances, the remainder of funding will not be released and in some instances, it may be required that part or all of the previously remitted funding be reimbursed to the College.

Research Program Fund available grants:

Value: Maximum of \$3000 within 12 months

Description: This grant will fund quality research projects which aim to gather preliminary data in an undeveloped field of research in order to explore the potential need for or value in future substantive research. The funding for this grant is only permitted to cover direct project costs excluding staff costs. Up to 10% of total grant funds may be committed to research dissemination such as open access publication or research conference presentation. Research dissemination funds are released upon approval by the Research Management Committee of appropriate dissemination forums.

Overview of Management: Applicants for this grant will be required to submit an application which outlines:

- Research proposal
- References
- Investigator time commitment to the proposed project

- Quality and capability of research team relevant to the proposal
- Investigator track record including Top 5 publications in the last five (5) years

All submissions will be assessed by the Research Management Committee and rated using the assessment criteria outlined in the [Instructions for Endeavour Research Grants](#). Additionally, all research that is conducted with or about people, or their data and which utilises College resources and facilities (either directly or indirectly) must seek ethical clearance from the Endeavour College of Natural Health Human Research Ethics Committee. Refer to the [Human Research Ethical Clearance Policy](#) for information on applying for ethical clearance. Successful projects will be listed with the Office of Research website.

Applicant Eligibility: As outlined above.

Endeavour Research Project Grant

Value: Maximum of \$7000 per year for up to 3 years

Description: This grant is able to support the creation of new knowledge by funding research projects in any area relevant to complementary and alternative medicine. Each grant application must include a collaborator who is affiliated with the College. The funding for this grant is only permitted to cover direct project costs including staff costs where appropriate. Up to 10% of total grant funds may be committed to research dissemination such as open access publication or research conference presentation. Research dissemination funds are released upon approval by the Research Management Committee of appropriate dissemination forums.

Overview of Management: Applicants for this grant will be required to submit an application which outlines:

- Research proposal
- References
- Investigator time commitment to the proposed project
- Quality and capability of research team relevant to the proposal
- Investigator track record including Top 5 publications in the last five (5) years

All submissions will be assessed by the Research Management Committee and rated using the assessment criteria outlined in the [Instructions for Endeavour Research Grants](#). Additionally, all research that is conducted with or about people, or their data or tissue and which utilises College resources and facilities (either directly or indirectly) must seek ethical clearance from the Endeavour College of Natural Health Human Research Ethics Committee. Refer to the [Human Research Ethical Clearance Policy](#) for information on applying for ethical clearance. Funding will be provided on a pro rata basis and continued funding for projects planned for longer than 12 months will be reviewed by the Research

Management Committee annually with approval for continued funding based on progress to date. Successful projects will be listed with the Office of Research website.

Research Support Funds for Endeavour Staff and Students

The College acknowledges the importance of collaboration and dissemination of research to support the development of research in complementary and alternative medicine. Financial support is available for permanent staff and contract academics of the College who are enrolled in research higher degrees to facilitate these important aspects of engagement with the wider research community.

Applicant Eligibility for Endeavour Research Support Funding Schemes

Applicants must:

- Be enrolled in an approved research higher degree
- Be either permanent staff or contract academics for the College (priority given to permanent staff)
- Not have exceeded the maximum allowed funding for the scheme
- Have complied with the reporting requirements for any previously awarded funding scheme (even if it is for a different scheme)
- Be formally enrolled at the time and **not** on:
 - Leave of absence, or
 - Under examination for their research degree
- Be undertaking a project listed on the Office of Research website.

Endeavour Staff Research Conference Fund

Value: Australia and New Zealand – up to \$700; International – up to \$1500

Description: The Research Conference Fund is available to all permanent staff and contract academics (priority given to permanent staff) who are enrolled in a postgraduate course with a research component as a contribution towards costs for travel to a national or international conference to present the findings of their research. The grant will be permitted to cover travel, accommodation and registration costs directly related to the location and duration of the conference.

Overview of Management: Applicants for this grant will be required to submit a [Staff Research Conference Fund Application Form](#). The grant is competitive and allocation will be determined by the Research Management Committee in line with the [Staff Research Conference Fund Instructions](#). Applications for this grant will be invited four (4) times each year to support travel occurring according to the schedule outlined in the [Staff Research Conference Fund Instructions](#).

Successful applicants will be required to share their presentation with the College community as determined by the Office of Research and agreed upon by the recipient. In addition, a summary of their experience and new knowledge gained through attendance at the conference must be provided to the Office of Research following the event (using the [Research Conference Experience Summary form](#)).

Receipt of this funding is restricted to twice for staff enrolled in doctoral degrees (and once in a calendar year), and once for Masters students. Applicants who have matriculated from a Masters to a doctoral degree are cumulatively allowed two (2) awards. Staff who are awarded the grant are also permitted to apply for professional development funding for additional costs not covered by the grant in line with the [Professional Development Policy – HE Academics](#), however a clear description of budgetary overlap by each funding source must be provided.

In the event that the student is required to submit an application prior to receiving notification of abstract acceptance, then the Research Management Committee may choose to provide approval pending acceptance of the abstract. Should a successful applicant be unable to attend or present at a conference as outlined in their application then they are required to notify the chair of the Research Management Committee explaining the change. Such a change may result in an alteration to the funding arrangements including cancellation of the approved funding or reimbursement of paid monies. .

Endeavour Staff Collaborative Research and Mentoring Fund

Value: Maximum of \$5000 per annum

Description: This fund is available to permanent staff and contract academics of the College who are enrolled in research higher degree, with priority given to permanent staff. The purpose of this fund is to enable and facilitate academics who would benefit from intensive collaboration or mentorship with national or international experts in their field of research for up to 90 days. The fund will be permitted to cover travel, accommodation and resources as necessary. Staff will be further supported by releasing them from their duties through granting Extraordinary Professional Development Leave.

Overview of Management: Applicants for this grant will be required to complete and submit a [Staff Collaborative Research and Mentoring Fund Application Form](#). Support from the fund is competitive and allocation will be determined by the Research Management Committee in line with the [Staff Collaborative Research and Mentoring Fund Instructions](#).

The successful applicant/s will be required to provide a measurable return to the research capacity and activity of the College. Only one (1) round will be considered per year and

academics will only be eligible to receive support from this fund once over the course of their candidature. In the case of individuals transferring enrolment from a research-based Masters to a Doctor of Philosophy, receipt of this grant will only be permitted once over the course of their *combined* candidature.

Applications must include a letter of support from the applicant's direct line manager at the College including a resource plan outlining how the applicant's job role and responsibilities will be managed during their period of leave. Applications must also include a letter of support from the expert mentor outlining their availability for the proposed time period in regards to their ability to provide resources and support to the applicant to achieve the proposed task.

Honours Research Project Fund

Students enrolled in an Endeavour Honours degree program will be eligible to access up the Honours Research Project Fund. The fund provides a maximum of \$1000 for students to use for their Honours project under the guidance and recommendation of their supervisor. The funding is only permitted to cover direct project costs including staff costs or project-specific skills training and consumables where appropriate. Up to 50% of total available funds may be committed to Honours research dissemination such as open access publication or research conference presentation. The Honours Research Project Fund(s) are released upon approval by the Research Management Committee.

Overview of Management: Applicants for this fund will be required to submit an application which outlines:

- Description of the research project
- Successful commencement of *RESE511 – Research Proposal and Ethics*
- Justification of the relevance and necessity of the funding for the student's project success

Endeavour Student Summer Research Scholarship

Students who are accepted into the Endeavour Summer Research Program will be eligible to access the Endeavour Student Summer Research Scholarship. The Scholarship provides a weekly stipend, paid by Endeavour College of Natural Health, for students who are competitively appointed into the Program by the Research Management Committee. The stipend is not paid during periods away from the College such as during the Christmas break. This allowance may be paid fortnightly, or as one or more lump sum, as determined by the College.

Endeavour Student Summer Research Travel Grant

Students who qualify for the Endeavour Student Summer Research Program but are not located on the campus where the research project will be managed can elect to be considered for an Endeavour Student Summer Research Travel Grant to assist with travel costs. Travel grants are valued for up to \$500 and will be paid as a one-off payment. The Research Management Committee will determine whether students receive this additional grant. To be eligible for the grant students will need to meet the following conditions:

- Required to relocate to a different city to participate in the program;

If a scholarship recipient withdraws from the program, their Scholarship and Travel grant (if applicable) will need to be returned to the College in full.

Research Publication Support

The College supports the dissemination of research to the wider research and practitioner community through peer-reviewed publication. This is achieved by encouraging permanent and contract staff affiliated with the College who disseminate research through peer-reviewed publication, and also through providing funding for open access publishing when appropriate.

Research Publication Fund

Value: \$50-\$200 per publication

Description: This award is a financial acknowledgement to non-research only academics and undergraduate students who publish research in a peer-reviewed journal and list their affiliation with the College.

Overview of Management: Authors will be required to submit an application for the award to the Office of Research for approval. The award will only be paid once evidence of the publication which fulfils the requirements is made available and approved by the Office of Research. Criteria for eligibility for this award is listed in detail on the [Research Publication Fund Application Form](#). Authors will have the option to choose either a \$50 direct cash award or an allocation of \$200 to an Individual Research Account held by the College for future research activity.

Direct Research Support for Staff and Students

The College acknowledges that the successful implementation of research projects often requires financial resources for direct research costs. As such, staff and students will have the capacity to accrue funds within an internal Individual Research Account. This account will hold any funds awarded through internal and external schemes and grants for the purposes of research. The funds held within this account must be used for direct research costs associated with a research project and will be determined by the following process:
