

ENDEAVOUR
College of
Natural Health

**2020 INTERNATIONAL STUDENTS
COURSE BROCHURE**

Acupuncture

**Bachelor of Health Science
(Acupuncture)**

endeavour.edu.au

Acupuncture is a branch of Chinese Medicine that stimulates specific points on the body in order to regulate the flow of Qi (vital energy) to balance the functions of the body, mind and spirit and to restore health. Chinese Medicine combines theory (philosophy and principles) and practices such as acupuncture, Chinese herbs, Chinese dietary therapy, Qi Gong, and massage (Tui Na).

Course Fees[†]

AUD \$84,522

Course Duration

4 years full time: 24 contact hours per week

Study Mode

Face-to-face on campus with selected subjects available online. See the course structure opposite for online availability.

Online Learning

Students intending to study on a student visa are unable to enrol exclusively in online learning subjects in a course of study. International students on a student visa may only enrol in online learning subjects that comprise no more than 30% of the course.

Subjects that may be taken online are shown in the course structure opposite. For a current listing of online subject availability and intake dates visit endeavour.edu.au/future-students/study-options

Intakes Dates

Semester 1: 2 March 2020

Entry Requirements

Endeavour College is a direct entry institution.

- › School leavers – Year 12 or equivalent (OP/ATAR score not required)
- › Work and life experience – applicants without year 12 equivalent may be admitted based on demonstrated ability to undertake study at higher education level through relevant work and/or life experience, and/or attempted or completed formal, informal or non-formal study.
- › English language proficiency equivalent to a 7.0 IELTS result is required.

Campus Availability

Brisbane, Melbourne and Sydney.

Campus CRICOS Code:

National CRICOS Provider Code: 00231G

CRICOS Course Code:

027955D

Transfer Credit

Students may apply for credit for subjects recently studied in formal education.

Recognition of Prior Learning (RPL)

Students may apply for RPL based on relevant work experience and educational history.

Payment Options

Tuition payment arrangements must be confirmed upon admission to the College.

Students must pay initial tuition fees deposit upon admission and balance two weeks prior to the relevant intake commencing. Payment of tuition fees for subjects enrolled in future intakes will only be accepted six weeks prior to the relevant intake/s. All payments must be made in Australian Dollars.

International Student Scholarship

Endeavour College offers international students a 15% scholarship off their total course tuition fees.

The scholarship is available to all new international undergraduate students who:

- › Meet the course entry requirements
- › Meet the International Student Scholarship eligibility criteria
- › Successfully complete an international student enrolment interview

Classes

Classes are taught by experts who are highly trained in their fields and who bring their own clinical experience to help provide context to theoretical and therapeutic subjects.

Practical Classes

To support learning students attend practical classes where they are expected to practice interviewing and case assessment techniques, as well as physical clinical examination and treatment procedures. This is conducted under the supervision of qualified instructors and with respect for privacy, cultural and religious differences.

Students will be required to purchase and use their own acupuncture kit (including needles, cups and other resources) for practical classes.

Teaching Clinics

Students gain significant clinical experience at Endeavour's Teaching Clinics under the supervision of qualified practitioners. In the clinics, students have the opportunity to develop and hone all skills required to run a successful clinic after graduation, including patient assessment and management, patient recruitment and continuity of care, customer service, and dispensary management.

The following requirements must be organised prior to commencing clinical practicum. Current certification needs to be valid for duration of clinic session in the following areas:

- › First Aid Certificate
- › Relevant State Working with Children Check
- › Police checks
- › Students in clinic are also required to wear a uniform, which can be purchased through the Endeavour Bookstore.

Assessments

While some subjects require mid-term and final exams, assessments may also comprise quizzes, essays, practical/clinical skills demonstration and tutorial participation.

Course Accreditation

The Bachelor of Health Science (Acupuncture) is approved by the Chinese Medicine Board of Australia (CMBA). Further information can be viewed at www.ahpra.gov.au/education/approved-programs-of-study.aspx

Professional Registration

Graduates must apply for registration with the Chinese Medicine Board of Australia (CMBA) if they wish to use professional titles and practise as a Chinese medicine practitioner in Australia. Information regarding registration standards may be viewed at www.chinesemedicineboard.gov.au/Registration-Standards.aspx

Association Recognition

Graduates may apply for membership with the following associations:

- › Australian Acupuncture and Chinese Medicine Association Ltd (AACMA)
- › Australian Natural Therapists Association (ANTA)
- › Australian Traditional-Medicine Society (ATMS)
- › Federation of Chinese Medicine and Acupuncture Societies of Australia Ltd (FCMA)

Professional associations vary as to the amount of online learning that they accept in a Bachelor degree. Their standards may change at any time and although Endeavour commits to keeping students informed of such changes, ultimately it is the student's responsibility to keep abreast of these issues to ensure they meet the qualifications.

Career Opportunities

Acupuncturists may practice independently as a sole trader, or provide treatment in a multidisciplinary setting.

Acupuncturists often work alongside other allied health practitioners such as medical doctors, physiotherapists, osteopaths, chiropractors and naturopaths.

Practitioners may choose to focus on particular areas of interest such as women's medicine, sports medicine, men's medicine, chronic disease or other areas.

Graduates are also eligible to study master degree programs in a variety of related areas.

For more information on this area of study explore online at endeavour.edu.au or call 1300 462 887 to speak with an Admissions Adviser.

Selected Subjects Available Online

Full Time Study Load

How to apply

- › Apply online at apply.endeavour.edu.au
- › Phone 1300 462 887 and select "1" to speak with an Admissions team member
- › For general course enquires visit endeavour.edu.au/contact

▲ Evidence of a current and valid Working with Children Check (or equivalent) is required to be presented to and validated by College, prior to commencement of this subject. Visit endeavour.edu.au/policies-and-procedures for details.

Subject Descriptions

Bachelor of Health Science (Acupuncture) BHSc (ACU)

Code	Subject Title	Description
Semester 1 – 1st Year		
BIOH111	Human Biological Science 1	Introduces concepts of human physiology, anatomy and homeostasis within cellular, tissue and system levels, including nervous, muscular, skeletal and endocrine.
CMPR113	Foundations of Traditional Chinese Medicine	Covers the philosophical and conceptual bases and principles of TCM practice, as well as TCM diagnostic methods.
CMAC111	Acupuncture Channel Theory	Covers the jing luo theory including the structure, course, functions and pathology. It also introduces OHS best practices to students.
CMPR112	TCM Terminology in Chinese	Learn to pronounce, spell, read and write Chinese herb and acupuncture point names, and basic TCM terms.
MSTA121	Musculoskeletal Anatomy and Palpation	This subject builds on the foundations of musculoskeletal anatomy and physiology delivered in Human Biological Sciences 1, providing a practical and theoretical framework for the development of palpation skills. Students learn to identify and palpate bony landmarks, muscles and other relevant structures.
NATE121	History and Philosophy of Natural Medicine	Introduction into the history and philosophy of a diverse range of traditional and contemporary medical systems that build foundation for medical health practice in an integrative health system.
Semester 2 – 1st Year		
BIOH122	Human Biological Science 2	Introduces concepts of human physiology, anatomy and homeostasis within further system levels, including digestive, cardiovascular, immune, pulmonary, urinary and reproductive.
CMPR121	TCM Assessment and Differentiation	Builds upon the basic foundations of understanding and using Traditional Chinese Medicine (TCM) concepts and practices.
CMAC121	Point Location	Introduces points, point functions and point locations. It also introduces safe needling theories and techniques.
SOCF111	Foundations of Communication and Counselling	Introduces communication, counselling and interpersonal skills for a natural medicine practitioner.
CMCS121	Chinese Medicine – Acupuncture Clinical Studies 1	Introduces TCM clinic policies, procedures, professional regulations, ethics and requirements of clinical practice.
Semester 3 – 2nd Year		
BIOC211	Pathology and Clinical Science 1	Introduces concepts of microbiology as well as symptomatology, diagnostic techniques and pathological processes of cardiovascular, respiratory, digestive and urinary systems.
BIOO211	Biochemistry for Complementary Therapists	Introduces structure of chemical molecules of the body, organic chemistry; and major biochemical pathways in health and disease.
CMAC213	Acupuncture Prescriptions and Therapeutics 1	Introduces classification and prescription of points according to TCM theories, and introduces skills of needling and moxibustion.
CMCS211	Chinese Medicine – Acupuncture Clinical Studies 2	Students develop clinical reasoning skill and prepare for clinical training through the observation of senior practitioners treating clients, while developing their TCM physical examination skills
SOCQ121	Foundations of Critical Enquiry	Learn to critically evaluate peer reviewed published literature, understand a variety of research methodologies, statistical techniques, and importance of research ethics.
CMEX421	Chinese Exercise Therapy	Apply Chinese philosophy/methods of Yang Sheng (health preservation, cultivation & enhancement) through life-style practices & Chinese exercise therapy.
Semester 4 – 2nd Year		
BIOS222	Pathology and Clinical Science 2 & 3	Introduces symptomatology, diagnostic techniques and pathological processes of sensory organs, musculoskeletal, integumentary, blood, nervous, endocrine and reproductive systems.
SOCP121	Psychology and Counselling Theory	Introduces fundamental theories which underpin counselling approaches necessary for client management in complementary healthcare practice.
CMAC221	Acupuncture Therapeutics 2	Develops intellectual and physical skills for clinical practice, including ba guan (cupping), guasha (scraping), moxibustion, electro-acupuncture and 9 needles.
CMAC222	Chinese Clinical Medicine 1	Covers Traditional Chinese Medicine (TCM) Traumatology and introduces TCM orthopaedics, treatment of muscle and tendon injury with acupuncture and Tui Na.
CMAC223	Chinese Clinical Medicine 2	Covers TCM internal medicine, study assessment, differentiation & treatment of internal medical diseases with acupuncture & basic shi liao (Chinese dietary advice).
CMCS221	Chinese Medicine – Acupuncture Clinical Studies 3	Further develops skills in consulting, clustering diagnostic information, constructing a treatment plan and performing an acupuncture treatment.
Semester 5 – 3rd Year		
CMTN211	Tui Na Therapeutics 1	Introduces Tui Na (traditional Chinese remedial massage) as an adjunctive practice to acupuncture.
BIOP211	Pharmacology	Introduces pharmacology, pharmacokinetics and toxicology concepts of contemporary medicine to build awareness and understanding of potential interactions between current biomedical treatments and traditional medicine.
BIOE221	Clinical Examination	Develops basic knowledge and practical clinical skills to assist in client diagnosis and treatment.
CMAC311	Chinese Clinical Medicine 3	Introduces the assessment, differentiation and treatment of gynaecological and obstetric diseases with TCM therapeutic methods.
CMCS311	Chinese Medicine – Acupuncture Clinical Studies 4	Clinical practice subject.
CMDE411	Chinese Dietetics	Revise and consolidate knowledge gained throughout course with shi liao (Chinese dietetics), knowledge of food function and combinations.
CMHB211	Chinese Herbal Medicine	Observes key herbs from Chinese herbal <i>materia medica</i> . Includes classification, common properties, functions and applications of 80 herbs.
Semester 6 – 3rd Year		
CMAC321	Chinese Clinical Medicine 4	Introduces TCM assessment, differentiation and treatment of paediatric and dermatological diseases, common diseases of external medicine.
CMCS321	Chinese Medicine – Acupuncture Clinical Studies 5	Clinical practice subject.
SOCI221	Interpersonal Skills of the Helper	Communication theories & skills to establish and maintain a client helping relationship.
CMTN311	Tui Na Therapeutics 2	Develops skills in Tui Na techniques appropriate to treat internal disorders as adjunctive practice to acupuncture.
CMHB221	Chinese Herbal Formulae	Chinese herbal formulae, including classification of Chinese herbal formulae, common functions & applications of each category of 30 Chinese herbal formulae.
Semester 7 – 4th Year		
CMAC411	Chinese Clinical Medicine 5	Introduces TCM assessment, differentiation & treatment of eye, ear, nose and throat diseases with Tui Na & basic shi liao, psychological/physical conditions.
CMCS411	Chinese Medicine – Acupuncture Clinical Studies 6	Clinical practice subject.
CMPR411	TCM Research 1	Explores features & issues in Traditional Chinese Medicine (TCM) research related to TCM theory and clinical practice. Also TCM related approaches.
CMPR311	History and Development of Chinese Medicine	Explores origins and historical development of Traditional Chinese Medicine (TCM). Outlines TCM figures and texts.
CMTN321	Chinese Medicine – Tui Na Clinical Studies 1	Clinical practice subject.
Semester 8 – 4th Year		
SOCE311	Establish and Manage a Practice	Develop skills to establish a health practice and manage/operate the clinic. Business strategies, ethics, privacy and relevant legislative requirements.
SOCH311	Foundations of Public Health	Explores the nature and scope of public health activity and the challenges facing public health in the 21st century. Students learn to evaluate current public health programs as well as developing an understanding of epidemiology and its relevance to public health practice.
CMCS421	Chinese Medicine – Acupuncture Clinical Studies 7	Clinical practice subject.
CMAC421	Acupuncture Practical Clinical Workshop	Supervised acupuncture and Tui Na experience, working in pairs to gain experience from both practitioner's and patient's perspective.
CMTN411	Chinese Medicine – Tui Na Clinical Studies 2	Clinical practice subject.

Endeavour College reserves the right to vary the frequency, availability and scheduling of online subject offerings depending on demand and professional body requirements. Students should gain advice from relevant professional bodies as to the acceptable amount of online learning that may be undertaken to obtain association recognition. Policies and procedures relating to study with the College, including the Course Viability Policy, are available online at endeavour.edu.au/policies-and-procedures
