Delivery Mode:

Clinic Block Delivery: 3 x 4 hour clinic practicum sessions per week over 12 weeks (includes 30 minutes per session set-up / pack down time)

Full Time

Part Time

Pre-requisites:
NMDD221, SOCI221, NMDS311, NMDC314, NMDA321

Co-requisites:
SOCE311

Special Resource Requirements:

Flat soled, closed toe leather footwear or approved equivalent

Completion of a clinical practicum subject within the previous 9 months, or passing of safe practices entrance examination (minimum of three clients as per the Clinic Client Recruitment Policy to demonstrate the student’s self and clinic promotion skills)

HLTAID003 Provide first aid (VET unit of competency)

LMS-based clinic induction and quiz

Professional Dress Standards as described by the Endeavour Clinic Handbook

Endeavour Clinic Handbook

WWCC (or its equivalent) for the location in which subject is undertaken as per Working with Children Check Policy

Clinical equipment kit including:

- Endeavour black tunic
- Measuring tape
- Otoscope
SECTION 2 – ACADEMIC DETAILS

Subject Rationale

Clinic students practise nutritional medicine under the supervision of qualified practitioners in the Endeavour Teaching Clinics, by taking the lead in client assessment and care. Practical application of nutritional medicine clinical skills such as history-taking, education of the client about nutritional medicine and the general course of treatment, nutritional medicine assessment techniques, pathology testing and conventional physical examination techniques, guide the student in developing an individual treatment plan. Client follow-up is expected along with background research on each client’s condition and evidence–informed treatment options conducted between client visits. Students apply holistic medicine theory and principles in case management with diverse patients and the range of acute and chronic conditions that present in our clinics. NMDC321 and NMDC322 together comprise the senior clinical practicum and are split to facilitate part-time study options.

Learning Outcomes

1. Apply holistic nutritional medicine philosophy, principles, ethical and professional values, knowledge and skills to the assessment and management of clients in a clinical setting.
2. Critically evaluate diagnostic and treatment options based on totality of professional education thus far, along with review of relevant research, clinical experience, cultural considerations and patient preferences to construct a suitable and effective treatment plan.
3. Display appropriate professionalism while maintaining a therapeutic relationship with the client when faced with ethical or boundary issues in clinical practice.
4. Conduct and observe nutritional medicine consultations to elicit clinical data essential to establish appropriate client management options.
5. Apply appropriate written and oral communication skills to communicate information and knowledge in the area of client management and professional practice.
6. Acquire and consolidate knowledge of nutritional medicine practice management including Occupation Health and Safety standards, office reception, clinic procedures, and dispensing.
### Assessment Tasks

<th>Session Content Delivered</th>
<th>Due</th>
<th>Weighting</th>
</tr>
</thead>
</table>
| **Attendance**  
(100% required) | N/A | N/A | Weekly | Pass/Fail |
| **Mid-semester Reflective Review Presentations** | 1-6 | 1-5 | 6 | 20% |
| **Client Case Study**  
(1500 words, suitable for publication) | 1-2, 4-5 | 1-8 | 9 | 20% |
| **Final Reflective Review Presentations** | 1-6 | 7-12 | 12 | 30% |
| **Case-based Written Exam**  
(2 hours) | 1-5 | 1-12 | 12  
(Final clinic week) | 30% |

All written assessments and online quizzes are due at 11:55 p.m. Sunday and submitted through the LMS

The overall pass rate for this subject is 50%

Additionally, students must pass the Case-based Written Exam with a mark not less than 50%

### Subject Content

<table>
<thead>
<tr>
<th>Week</th>
<th>Clinical Practicum</th>
</tr>
</thead>
</table>
| 1-12 | Clinic practicum goes from Week 1 to Week 12.  
Mid-semester reviews are conducted in Weeks 6-7 and students are presented with written and verbal feedback from each supervisor about their performance in clinic in relation to specified rubrics, and marks are aggregated to provide a single grade.  
Final reviews of clinical practicum are conducted in Week 12 and students are presented with further written and verbal feedback from each supervisor about their performance in clinic in relation to specified rubrics, and marks are aggregated to provide a single grade.  
In Clinical Practicum students are evaluated on their ability to apply their knowledge and skills in a professional manner. Therefore students should note that, although helpful, previous success in academic subjects does not guarantee success in Clinical Practicum.  
During Nutritional Medicine Clinical Practicum students will practice under supervision either individually or in pairs:  
- Conducting clinical consultations and observations  
- Good practitioner-client communication  
- Give short, oral presentations to supervisor and student peers in relation to client management and professional practice  
- Case taking  
- Clinical examination skills  
- Interpretation of biomedical and functional test results  
- Differential diagnosis  
- Developing individualised treatment plans  
- Appropriate referral  
- Presentation to supervisor and obtaining approval for treatment plan |
Office management skills, dispensing and reception duties
Observing all clinic policy and procedure
Participating in debriefing sessions at the conclusion of each clinical practicum to identify any important issues
